Important note!

The formulas above give an indication of the maximum capacity.

DESCRIPTION

Bamboo Tipis are innovative, cone-shaped tents. This impressive, decorative eye-catching structure is the ideal attention-grabber for any outdoor concept!

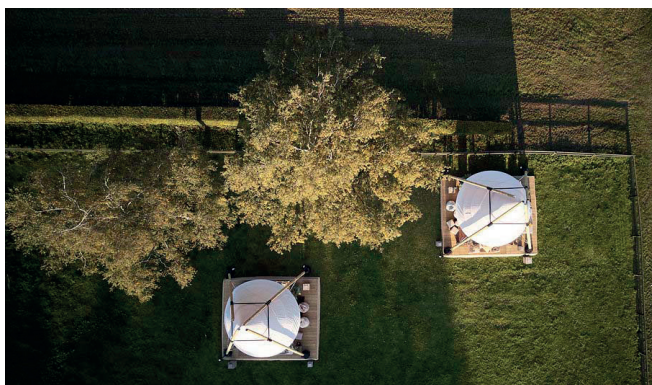

MATERIALS

The cone is perfectly centered in between the 4 bamboo poles and is made of beautiful sailcloth, which is resistant to all weather conditions. The bamboo poles are made of hand-picked bamboo and interconnected with custom-made metal parts.

The structure comes with a tent book with the necessary certification (except for Germany), and fire certification documentation.

COLORS

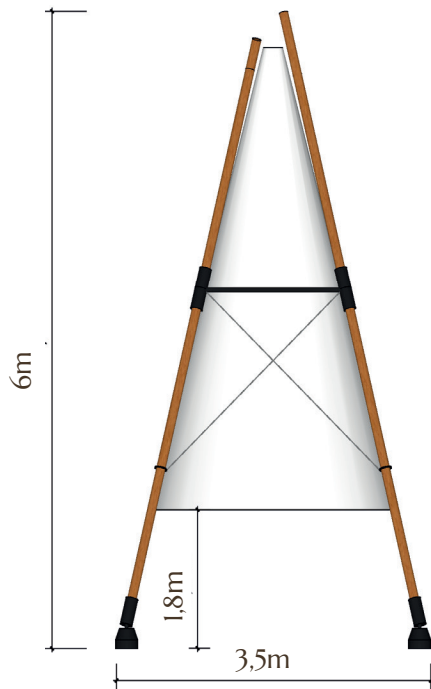

The Bamboo Tipi cone is available in ivory sailcloth fabric.

ORGANIC-CONCEPT

TECHNICAL DRAWING

The Bamboo Tipi is 6m high and the base is 3,5m x 3,5m. The cone is 4,2m high and starts at a height of 1,8m.

The ground surfaces measures 12,25m².

WHAT'S INCLUDED?

- 4x Bamboo poles
- 4x Metal boots & Metal connection parts
- Tension cable set
- 1x Sailcloth cone

WHAT'S NECESSARY FOR BUILD-UP?

A hydrolic hoist up to 6m and a scaffolding up to 4m. A build-up manual will be provided after the purchase of this tent structure.

If you desire to have the complete structure stand on wooden flooring, a floor of 4 x 5 m is recommended.

LONG TERM INSTALLATION

This product is perfectly suited for a long term installation, and requires almost no follow-up once installed.

WEATHER

In case of strong winds above 80km/h it is important to keep an eye on the structure. It may be necessary to lower the tipi cone by hand, which is possible through an easy pulley system.
