Reimagine your Bell Tent with our Organic Bell Cover

Embrace nature without compromising on comfort- The Organic Bell Cover is available in premium shade net or O-C lightweight stretch fabric and is designed to seamlessly blend with the environment while offering enhanced protection and longevity for your Bell tent.

This innovative layer shields your tent from the elements, reducing wear and extending its lifespan!
More than just protection- it transforms the aesthetic- giving your Bell tent a refined and natural look.
The cover also creates an inviting outdoor space providing shade and shelter for a more comfy glamping experience.

With its shapes and breathable materials, this cover is the perfect fusion of functionality and design, ensuring your Bell tent remains a timeless retreat in nature.

ORGANIC BELL COVER

Organic Bell Cover: Shade Net Fabric Overview

	ORGANIC SHADE NET
COMPOSITION	• 100% Polyester
AVERAGE WEIGHT	• 195 gsm
CHARACTERISTICS	• Easy care & maintenance • High UV protection (up to 97%) • Durability & longevity • Resilient dimentional stability • Extreme strength • Heat reduction • High tear resistance
LIFESPAN	• 10 years (in case of a permanent set-up)

Organic Bell Cover: 3 PLY Fabric Overview

	3 PLY
COMPOSITION	• Q = Polyester/PU
CONSTRUCTION	• Composite
WEIGHT	• 500 gsm
ANTI-FUNGAL	• Treated
FLAMMABILITY PERFORMANCE	• M2
LIFESPAN	• 6-7 years (in case of a permanent set-up)

This is a 3 PLY laminated product that is designed for outdoor stretch tenting.

This product exhibits very good stretch and recovery properties. The product is waterproofed by sandwiching a polyurethane membrane between two knitted fabrics.

By using a PU membrane instead of a PVC film, the elongation and recoverability is improved. However, the waterproofing performance of a PVC film is superior.
