Inner Liner

COLORS

The inner liners are suspended from the roof along the inside of the tent, helping to regulate the temperature inside. Besides being functional, the inner liner creates a luxurious, warm and cozy feeling inside the tent.

MATERIALS

- Fire Retardant Trevira
- Natural Hemp

PACKING

- Trevira: 53 x 30 x 16 cm - 5,5 kg
- Hemp: 50 x 30 x 30 cm - 11 kg

Window Panels

Each Bell Tent is equipped with multiple windows featuring sturdy mosquito mesh. The front and side windows can be easily unzipped and interchanged with different panel types, allowing for customisation of the Bell Tent to suit individual needs.

The technical panel allows for efficiently routing cables and other devices in and out the Bell Tent. The transparent panels let in extra light while still providing wind protection. The fire-retardant stove panel will safely guide the stove’s tube outside the tent.

	TRANSPARENT PANEL (SET OF 2)	STOVE PANEL	TECHNICAL PANEL
MATERIAL	Transparent PVC	Grey heat resistant material	Canvas material
SUITED FOR	Front window	Front window	Side window
PACKING	14,5 x 15 x 88 cm - 1 kg	14,5 x 15 x 88 cm - 1,3 kg	14,5 x 15 x 88 cm - 1 kg

Short Guy Poles

Our custom set of short guy poles, crafted from natural wood, ensures a perfect tensioning of the Bell Tent while also minimizing the required space for setup. Thanks to their beautiful natural look, these short guy poles add an additional touch of elegance to the Bell Tent.

MATERIALS

- 8 side poles (natural wood)
- 2 front poles (natural wood)

PACKING

- Carton box: 84 x 14 x 14 cm
- Weight: 2,5 kg

Center Pole Plate

COLOR

The center pole plate has a diameter of 18 cm and can be easily slid under the center pole of the Bell Tent. It spreads the pressure of the centre pole over a larger surface, reducing the chance of damaging the Bell Tent’s groundsheet.

MATERIAL	Steel
DIMENSIONS	Ø 180 mm x 3 mm
PACKING	• Recycled A4 envelope • 0,586 kg

Set Shock Absorbers

COLOR

This set of 5 shock absorbers helps reducing stress on the Bell Tent’s fastening points during windy conditions, thus improving the longevity of the tent and preventing wear to the frame and fabric. They also maintain the tight pitch of the Bell Tent by preventing it from losing tension easily.

MATERIAL	EPDM
DIMENSIONS	12 x 2,9 x 2 cm
PACKING	• C5 envelope • 170 g
